1. **What type of website are you looking to create? Is it for a business, school, personal, or entertainment? What type of business or school, etc.?** Business, specifically commercial real estate rental and Airbnb vacation rental.

2. **Who is your target audience?** Investors as in those interested in real estate and growing their real estate portfolio, business owners looking for commercial real estate space for rent, tourists looking to rent my airbnbs, locals looking for a staycation.

3. **What type of information do you want your target audience to gain from this website?** Learn that they can invest in my real estate properties and grow their capital, see rental space available in my properties.

4. **What sort of actions would you like your target audience to take on this website? Are they purchasing a product, booking appointments, providing information, etc.? Are there any features this website must have?** Target audience should be able to select properties interested in, make contact by email, WhatsApp, etc… they will be selecting rental space, asking questions etc… they should be able to take a virtual tour of the property, ask questions.

5. **How will you know this website is successful?** We should be able to track data of who visited website, how old, what information they wanted etc…

6. **Do you already have the text, images, videos, and any other content needed for this website?** Very little… photos, can create some vids

7. **What are the most important aspects of this website? How are they connected?** Must look serious/ professional, user-friendly, complete and informative.

8. **Are there multiple pages in this website, tabs within one single page, or both? What are they? (eg. Do you have an About Page, a Contact Page, etc.?)** Yes there will be multiple pages… maybe both not sure. U can explain. About page and contact page can be created?

9. **When someone visits your website, what information do you want to be immediately visible?** A video explaining what the site will do for them. Purpose of website… this site will help you see commercial space for rent, vacation spaces, and other businesses.

10. **What information do you want your target audience to read first in your Home page? Is it introductory or explanatory? Does it have social proof(stats and featured**

comments to appeal to an audiences ethos) or achievement/awards? Information on properties available for commercial rent.

11. **What type of layout do you see for your Home page? Are there images and/or paragraphs of information? Are there sections with different headings? Is there a specific alignment in mind?** Images, videos, not too much fluff.

12. **Do you want a footer(an area that holds contact info, links to outside sources not immediate to the website, and fine prints such as terms of service, privacy policy, and copyright notes) at the end of your web pages? If so, what does it contain? How is laid out, one big paragraph, columned sections, etc.?** Yes a footer

13. **Based on the layout of your Home page, how would you like to layout your others, if there are any? Is your Contact page a form, is your About page a picture of yourself with a paragraph beside it?** I want about page to have a video, some quotes. Contact form yes

14. **How do you want your target audience to interact with getting through different pages, if there are any? Is it simply clicking the link in the top menu, or are there further ways, like links throughout the text, or 'Learn More' buttons?** Clicking on images to view more information

15. **Are there other ways of interacting with the website within the pages? Are there buttons to click, dropdowns to select, text to reveal, videos to play, etc.?**

16. **What type of aesthetic or tone do you want your website to have? Is it modern, immersive, artistic, retro, etc.? What colours, patterns, shapes, alignments, typefaces, fonts, etc. represent that?** Professional. Caribbean but elegant font.

17. **Do you already have a brand logo, colours, typefaces and fonts, images, or other visual assets that should be used?** Will have to create logo for Aumnia Group Inc. But have logos and pantones for other businesses.

More Complex Design Questions:

18. **How prominent do you want your titles, headings, and body text to be? (eg. Subtle or bold and attention-grabbing).** gentle yet eye-catching

19. **Do you want to emphasize titles, headers, and more important pieces of text with different typefaces(eg. A cursive, handwritten one to the manuscript body text), fonts(eg. Bold, italic, or underlined), colours, etc., or keep the same characteristics across the board?**

20. **Do you prefer tight, compact letters, or do you prefer them more spaced out(eg. Abc versus A b c).** tight compact

21. **How compact or spaced out should the lines within your paragraphs be from one another(a.k.a. line height)?**

22. **Do you want all your text to be a single solid colour, or are there situations where the colour should be different? Are there sections that call for a different background colour, or for borders?**

23. **Any other notes regarding this website in terms of design, purpose, information, interactivity, etc.?**

Below, feel free to plan out a basic look for a few of your website pages, if there are multiple.
